Power Tools for Creative Minds
Calgary • Edmonton

Ultra thin. Ultra Portable. Flat-out stunning.

LED-backlit display
Its 13.3-inch widescreen LED-backlit display delivers vibrant images and rich colours at 1280-by-800 pixel resolution. The power-efficient LED technology also conserves battery life.

Full-size keyboard
The full-size, illuminated keyboard is perfect for staying productive on a plane or in a conference hall.

The genius of multi-touch
The MacBook Air trackpad adopts many of the innovative Multi-Touch gestures from the Apple iPhone, so you can pinch, swipe or rotate by simply moving your fingers.

Up to 4x more graphics performance
With the NVIDIA GeForce 9400M integrated graphics, the new MacBook Air offers smooth video playback, a great ultraportable gaming experience, and support for the new 24-inch Apple LED Cinema Display as well as the 30-inch Apple Cinema HD Display

Faster Intel mobile architecture
With speeds up to 2.13GHz, the Intel Core 2 Duo processor in the new MacBook Air offers 50 percent more L2 cache, faster DDR3 memory, and a faster frontside bus than the previous model.

Next-generation wireless
With blazing-fast 802.11n and Bluetooth 2.1 + EDR wireless technologies built in, MacBook Air takes full advantage of the increasingly wireless world.

Remote Disc
An innovative feature that allows you to access the DVD or CD drive of a nearby Mac or Windows PC. It's perfect for installing software and retrieving files.

iLife '09 included.

We've got you covered.
